

# GEARGRID® FIRE

The Storage Solution Experts

Strategic Solutions  
for Fire Storage

## Our Story

With nearly 100 years in manufacturing excellence, GearGrid prides itself on building all of its products with quality materials and labor in the USA. Our manufacturing facility has state-of-the-art technology, an in-house design team, an on-site powder coating department and a dedication to providing quality products and service comparable to none.

Since 1921, GearGrid, formally known as Mid-Minnesota Wire, has focused on designing and building durable custom wire forms for retail display and Original Equipment Manufacturer (OEM) markets. In 1997, a new product was created at GearGrid. This product was a firefighting storage unit that became an internationally sold product. Eventually GearGrid expanded the division to additional firefighting storage solutions, athletic, equine and tactical storage solutions, in addition to providing custom retail displays and wire forms.

Today, GearGrid products can be found in national and international markets. As always, GearGrid products are made with the highest dedication to quality and will always be 100% made in the USA.

## What We Do

We specialize in the design and fabrication of durable storage solutions for markets that require leading edge solutions. GearGrid is the market leader in the Public Safety, Athletic/Education and Automotive Industries.

GearGrid offers a full line of equipment handling and storage solutions to create a unified look, function and quality standard throughout the station. Factory direct distribution and no reseller network ensures consistent service and pricing across the US regardless of facility location.

**SolidWorks is the CAD (Computer Aided Drawing) program GearGrid uses for drawing and documenting products.**

# Standard Wall Mount Locker Sizes

## Standard Wall Mount Lockers

GearGrid's Standard Wall Mount Lockers come in a variety of sizes to meet your department's exact storage needs. Our patented design promotes maximum air movement, which minimizes odor build-up and allows damp items to dry faster. Above floor mounting eliminates the need for separate base and makes cleaning easier than ever. No matter the size of your space, GearGrid has the perfect storage solution for your department.

- A** 18" W x 20" D x 74-½" H
- B** 20" W x 20" D x 74-½" H
- C** 24" W x 20" D x 74-½" H
- D** 24" W x 24" D x 74-½" H
- E** 24" W x 32" D x 74-½" H  
Note: Locker size not shown above
- F** 30" W x 24" D x 74-½" H
- G** 36" W x 24" D x 74-½" H

## Standard Wall Mount Lockers

GearGrid's Standard Wall Mount Lockers are the strongest and most versatile line of fire lockers available. Our patented design promotes maximum air movement, which minimizes odor build-up and allows damp items to dry faster. Above floor mounting eliminates the need for separate base and makes cleaning easier than ever. GearGrid offers complete customization of our lockers to match your design specifications, so you can build your locker system in any combination.

**Frame:** Heavy-duty 1-¼" steel tubing

**Side & Back Grids:** High-strength ¼" wire, 3" x 3" square grid pattern

### Secure Door Options:

- Heavy-duty, welded 1-¼" OD, 16-gauge steel tube with 3" x 3" grid infill
- Heavy-duty, welded 1-¼" OD, 16-gauge steel tubing with solid MDF core laminate

**Shelves/Hooks:** Two shelves constructed of high-strength ¼" wire, and three apparel hooks per locker

**Adjustability:** Wire shelves adjustable in 3" increments

**Name Plate:** 20 GA. sheet metal, accepts 2" x 16" custom printed name plate. 2" x 12" nameplate on Secure Door

**Mounting Brackets:** 11 GA. steel

**Finish:** Super Durable TGIC powder coat

**Colors:** 7 standard colors

**Shipping:** Ships knocked down for ease of handling and reduced shipping costs

**Assembly:** With simple tools it's fast and easy

Locker size includes Top-Side Storage Shelf. Not available with Secure Door option.

## Two-Tier Lockers

GearGrid's Two-Tier Lockers are designed with the same benefits and constructed of the same rugged materials as our other durable products. Added locker openings provide space on any wall where full height, individual lockers may not fit.

**Width** ..... 18" & 24"  
**Depth** ..... 20"  
**Height** ..... 74-½" & 86-½"

**Frame:** Heavy-duty 1-¼" OD, 16-gauge steel tube

**Body Panels:** High-strength ¼" steel wire, 3" x 3" square grid pattern

**Top, Bottom & Tier Divider:** Full-width and depth constructed of high-strength ¼" steel wire. Mechanically secured in a fixed position

**Secure Door Options:**

- Heavy-duty, welded 1-¼" OD, 16-gauge steel tube with 3" x 3" grid infill
- Heavy-duty, welded 1-¼" OD, 16-gauge steel tube with solid MDF core laminate

**Hooks:** Three apparel hooks per locker opening

**Latch:** Heavy-duty, secure, rotary/slam latch with padlock hasp, lock not included

**Name Plate:** 20 GA. sheet metal, accepts custom printed name plate

**Mounting Brackets:** 11 GA. steel

**Finish:** Super Durable TGIC powder coat

**Colors:** 7 standard colors

**Shipping:** Ships knocked down for ease of handling and reduced shipping costs

**Assembly:** With simple tools it's fast and easy

## Free Standing Tube Wall Structure

The GearGrid Free Standing Tube Wall Structure (FSTWS) provides an additional and alternative mounting option for our Standard Wall Mount Lockers. The FSTWS uses heavy-duty floor mounting plates to securely attach the frame structure to the floor in any desired location, while maintaining the benefits of typical wall mount installation. The FSTWS allows lockers to mount on one or both sides of the structure, and will be engineered for your desired layout, locker size and quantity.

**Size:** Determined by locker layout

**Construction:** Units shall be welded at all applicable joints. Use of fasteners will only be required to allow for knock-down shipping, securing units to mounting surface and on applicable accessories

- Vertical Posts: 4 x 4, .250 wall thickness ASTM A513 steel tube
- Floor Mounting Plates: ½" steel plate welded to vertical posts. ¾" mounting holes as needed \*Note: Mounting plate hole configurations subject to locker layout
- Horizontal Frames: 4" x 4, .1875 wall thickness ASTM A513 steel tube. Frames mechanically fastened to vertical posts with supplied or identified hardware \*Note: If Power Bars (Electric Raceway) are used, top horizontal frame will be 6 H x 4 W, .1875 wall thickness steel tube

**Finish:** Super Durable TGIC powder coat

**Colors:** 7 standard colors

**Shipping:** Ships knocked down for ease of handling and reduced shipping costs

**Assembly:** With simple tools it's fast and easy

## Standard Mobile & Free Standing Lockers

GearGrid's Standard Mobile & Free Standing Lockers offer the strength, durability and open design of our Standard Wall Mount Lockers while adding unlimited placement flexibility. Whether you are short on wall space or simply prefer the portability, these mobile storage lockers let you use any open space for fast, easy access to gear and superior ease of cleaning. Each bank of lockers is mounted to a heavy-duty, welded frame and includes either four locking casters, levelers or floor mounts.

### Basic 18" (Single Sided)

**Width** ..... 39" 57" & 75"  
**Depth** ..... 20"  
**Height** ..... 83"  
**Config.** 2 pack, 3 pack, 4 pack,

### Standard 20" (Single Sided)

**Width** ..... 43" & 63"  
**Depth** ..... 20"  
**Height** ..... 83"  
**Config.** ..... 2 pack, 3 pack

### Jumbo 24" (Single Sided)

**Width** ..... 51" & 75"  
**Depth** ..... 20" & 24"  
**Height** ..... 83"  
**Config.** ..... 2 pack, 3 pack

### Basic 18" (Double Sided)

**Width** ..... 39" 57" & 75"  
**Depth** ..... 39"  
**Height** ..... 83"  
**Config.** 4 pack, 6 pack, 8 pack

### Standard 20" (Double Sided)

**Width** ..... 43" & 63"  
**Depth** ..... 39"  
**Height** ..... 83"  
**Config.** ..... 4 pack, 6 pack

### Jumbo 24" (Double Sided)

**Width** ..... 51" & 75"

## Personnel Lockers

Our Wall Mount and Mobile Personnel Lockers include all the advantages of our Standard Wall Mount Lockers, while adding the flexibility of being either a mobile solution or back-to-back island configuration. Each bank of lockers is mounted to a heavy-duty welded frame and includes either four heavy-duty locking casters, levelers or floor mounts.

**Width** ..... 18", 24" & 30"

**Depth** ..... 30-1/2"

**Height** ..... 70"

(77" to 80" overall height when mounted)

\*Note: Mobile Lockers only available in 18" and 24" widths

**Frame:** Heavy-duty 1-1/4" OD, 16-gauge steel tube

**Body Panels:** High-strength 1/4" steel wire, 2" x 2" square grid pattern

**Back Grids (Optional):** High-strength 1/4" wire, 2" x 2" square grid pattern

**Secure Door Options:**

- Heavy-duty, welded 1-1/4" OD, 16-gauge steel tube with 1.5" x 1.5", 8 gauge welded wire panel
- Heavy-duty, welded 1-1/4" OD, 16-gauge steel tube with solid panel MDF core laminate

**Shelves/Hooks:** Heavy-duty, full-width, 3/4" MDF core laminate or HDPE mounted to side panels with heavy-duty hook mounts

- Adjustability:** Shelves adjustable in 2" increments
- Seat:** Integrated, lifting, full-width and depth seat (3/4" MDF core laminate or HDPE), mounted to heavy-duty, welded hinge
- Name Plate:** 20 GA. sheet metal, accepts custom printed name plate
- Mounting:** Wall mount, floor mount or mobile (18" and 24" only)
- Finish:** Super Durable TGIC powder coat
- Colors:** 7 standard colors
- Shipping:** Ships knocked down for ease of handling and reduced shipping costs
- Assembly:** With simple tools it's fast and easy

**Personnel Seat**

**Padlock Hasp on Seat**  
(Lock not included)

## Suffolk & Miami Systems

GearGrid's multi-functional Suffolk and Miami Systems are designed for safe gear storage and transport. Now available in fixed and mobile configuration options, the system's versatility allows for storage of both cylinders and duty bags, with the added flexibility of shelf adjustability in 3" increments. The system's heavy-gauge, square tube frame construction is finished with a Super Durable, interior/exterior grade TGIC powder coating.

### Padlock Hasps

Provide complete locking capability for added security, lock not included

### Locking Casters

Locking casters handle up to 950 lbs. each

#### Miami

Width ..... 49-1/2"

Depth ..... 33-1/2"

Height ..... 74-1/2"

#### Suffolk

Width ..... 49-1/2"

Depth ..... 33-1/2"

Height ..... 82"

- Ideal for secure trailer storage
- Four point locking system provides added security
- Stores up to four large duty bags
- Available with or without Secure Doors (padlock hasp when doors are ordered), lock not included
- Miami System stores up to 30 cylinders
- Suffolk System stores up to 36 cylinders

**Frame:** Heavy-duty 1-1/4" steel square tubing

**Side & Back Grids:** High-strength 1/4" steel wire, 3" x 3" square grid pattern

**Secure Doors:** 1-1/4" heavy-duty tubing with high-strength wire, 3" x 3" square grid pattern

**Casters:** Locking casters handle up to 950 lbs. each

**Shelves:** High-strength 1/4" wire, SCBA, flat or O<sub>2</sub>

**Finish:** Super Durable TGIC powder coat

**Colors:** 7 standard colors

**Shipping:** Ships knocked down for ease of handling and reduced shipping costs

**Assembly:** With simple tools it's fast and easy

## Seattle Equipment Storage System

The Seattle Equipment Storage System provides three storage openings each 24 W x 32 D x 72 H. The Seattle is available in a mobile platform or it can be floor mounted if a fixed location is desired. Hang-bars can be added for hanging gear, and flat shelves can be mounted in each opening for additional storage and are adjustable in 3" height increments. Completely modular, GearGrid's Seattle Equipment Storage System can be designed to your exact needs.

Seattle System	
<b>Width</b> .....	75"
<b>Depth</b> .....	32"
<b>Height</b> .....	82"

- Available with or without Secure Doors (padlock hasp when doors are ordered), lock not included
- Outfit the Seattle with flat shelves or hang-bars to create a modular storage system
- Adjustable shelves in 3" increments

**Frame:** Heavy-duty 1-¼" steel square tubing

**Side & Back Grids:** High-strength ¼" steel wire, 3" x 3" square grid pattern

**Secure Doors (Optional):** 1-¼" heavy-duty tubing with high-strength ¼" wire, 3" x 3" square grid pattern

**Casters:** Locking casters handle up to 950 lbs. each

**Shelves:** High-strength ¼" wire, SCBA, flat or O<sub>2</sub>

**Finish:** Super Durable TGIC powder coat

**Colors:** 7 standard colors

**Shipping:** Ships knocked down for ease of handling and reduced shipping costs

**Assembly:** With simple tools it's fast and easy

### Padlock Hasps

Provide complete locking capability for added security, lock not included

### Locking Casters

Locking casters handle up to 950 lbs. each

## Dive Locker Deluxe™ Storage System

GearGrid's Dive Locker Deluxe offers the latest development in the proper storage and drying of dive gear including wet suits and dry suits as well as other oversized protective gear, such as CBRN. With its patented extended shock system, oversize gear is allowed to fully extend ensuring proper drying and storage resulting in longer lasting gear. With this system, GearGrid also introduces split secure storage with individual locking doors creating maximum use of space while ensuring individual security.

- Extended shock dive hanger can be purchased separately and/or used in other select GearGrid products
- Unit available with or without doors
- Shelves are adjustable in 3" increments
- SCUBA and flat storage shelves available with system

### Dive Hanger

Mounted to Wall Mount Grid Panel

### Locking Casters

Locking casters handle up to 950 lbs. each

### Dive Locker System

Width .....75"  
 Depth .....32"  
 Height .....82"  
 (Storage Module Only)

**Frame:** Heavy-duty 1-1/4" steel tubing

**Side & Back Grids:** High-strength 1/4" steel wire, 3" x 3" square grid pattern

**Secure Doors (Optional):** 1-1/4" heavy-duty tubing with high-strength 1/4" wire

**Casters:** Locking casters handle up to 950 lbs. each

**Finish:** Super Durable TGIC powder coat finish

**Colors:** 7 standard colors

**Shipping:** Ships knocked down for ease of handling and reduced shipping costs

**Assembly:** With simple tools it's fast and easy

## Heavy-Duty Mobile Hose & Cylinder System

Responding to a fire department's need, GearGrid redesigned its popular mobile storage system to handle the tough job of storing hose and cylinders. Hose, cylinder, O<sub>2</sub> and flat shelves can be mixed and matched to create the perfect storage unit for you.

- Durable steel construction with reinforced base capable of supporting up to 3,800 lbs.
- Designed to accommodate hose sizes ranging from 1-1/2" to 5" and a variety of SCBA and O<sub>2</sub> cylinder sizes
- Shelves are adjustable in 3" increments

### Hose & Cylinder System

Width .....75"

Depth .....26"

Height .....82"

### Reinforced Base

base supports 3,800 lbs.

### Locking Casters

Locking casters handle up to 950 lbs. each

**Frame:** Heavy-duty 1-1/4" steel tubing

**Side & Back Grids:** High-strength 1/4" steel wire, 3" x 3" square grid pattern

**Casters:** Locking casters handle up to 950 lbs. each

**Finish:** Super Durable TGIC powder coat finish

**Colors:** 7 standard colors

**Shipping:** Ships knocked down for ease of handling and reduced shipping costs

**Assembly:** With simple tools it's fast and easy

"We gathered information about GearGrid as well as their main competitor that looks a lot like them. On two separate occasions at two separate locations, we heard the vendor (competitor) answer the question about how to fix broken welds with the same answer: JB Weld. This information allowed us to request GearGrid, and ensured our Department a quality made product."

-Chief Jim Aslinger Sale Creek Volunteer Fire Department, Sale Creek, TN

## Mini Mobile Hose & Cylinder System

- Designed to accommodate up to 24 cylinders or 800' of 2-½" hose or any combination of the two
- Stores hose sizes ranging from 1-½" to 3" and a variety of SCBA cylinder sizes
- Can be used in conjunction with O<sub>2</sub> cylinder and flat shelves
- Configurable in multiple combinations

### Mini Hose & Cylinder

Width ..... 50"  
Depth ..... 20"  
Height ..... 59"

### Mini w/ Winder

Width ..... 80"  
Depth ..... 20"  
Height ..... 59"

**Frame:** Heavy-duty 1-¼" steel tubing

**Side & Back Grids:** High-strength ¼" steel wire, 3" x 3" square grid pattern

**Casters:** Locking casters handle up to 250 lbs. each

**Finish:** Super Durable TGIC powder coat

**Colors:** 7 standard colors

**Shipping:** Ships knocked down for ease of handling and reduced shipping costs

**Assembly:** With simple tools it's fast and easy

## Mini Mobile O<sub>2</sub> Cylinder System

- Designed to accommodate up to 32 O<sub>2</sub> cylinders
- Can be used in conjunction with hose, flat or SCBA shelves

## Five-Shelf Mini Mobile Hose System with Winder

- Each shelf has a unique adjustable "book-end" ensuring hose is always stored upright
- Accommodates up to 1000' of 2-½" hose
- Winder accommodates hoses up to 3" in diameter
- Stores hose sizes ranging from 1-½" – 3" and a variety of cylinder sizes

## Calculate Custom Wall Mount Configurations

We've made it easy for you to calculate the number of wall mount lockers that will fit a specified wall space. Just take the length of the wall in inches and subtract 1-1/4". Next, divide by width of selected locker (18", 20" or 24").

### Example:

Standard Locker Width ..... 20"

Wall Length ..... 366"

Height ..... 74-1/2"

$366" - 1\frac{1}{4}" = 364.75"$

$364.75" \div 20" = 18.23"$

**18 lockers will fit desired space**

For more information or a custom quotation call (888)643-6694 or sales@GearGrid.com

## Furring System

GearGrid's Furring System is the ideal solution for mounting to walls with exposed conduit, pipes, or other obstructions. Available in standard wall and floor offsets from 2" to 8" (vertical & horizontal).

## GearGrid's Color Options\*\*

### Standard Color

Burgundy

Brilliant Black

Autumn White

Red Baron

Blue Streak

Crane Grey

Evergreen

Custom Colors Also Available.

\*\*Printed colors may vary from metal colors.

Metal color chips available upon request.

"As a retired fire chief who had bought emergency service equipment for over 35 years and now as a fire station design specialist for Five Bugles Design, I know the value of quality products. I encourage our clients to purchase building products that last as long as the fire station does and GearGrid is such a product. Their equipment, service and support exemplify quality."

— Edward Mishefske, Five Bugles Design, Menominee WI

## Accessories

GearGrid's innovative accessories provide the ultimate solutions to your unique storage challenges. From our Power Bar providing fast, easy access for charging cell phones, flashlights, or radios, to our one-of-a-kind Stow-Away Seat for added convenience and comfort, GearGrid heard your needs and responded with the options you need. All built with the same heavy-duty steel and attentive craftsmanship as the rest of our line, GearGrid accessories let you organize your space, your way.

### Charging Station

GearGrid's Charging Station is ideal for storing and charging equipment, such as radios and flashlights between calls. The Charging Station base is 4-1/4" x 5-1/4".

### SecureBox™

The SecureBox provides a safe location for personal items.

Available Sizes:

Regular: 6" W x 6" H x 12" D

Large: 6" W x 12" H x 12" D

### Binder Rack

Provides quick and easy access for training manuals, larger mail items – whatever you need to keep handy.

### Power Bar™

GearGrid's Power Bar adds an electric receptacle opening to each locker. Can be installed on both new and existing GearGrid Storage Systems. Electrical service, receptacle outlet and wiring supplied by customer's licensed electrician.

Available for:

18", 20" & 24" Wall Mount & Mobile Lockers 4' & 6' Slinger Workstations

\*Note: Does not require UL listing. Please check with appropriate officials regarding local requirements.

### Backboard Rack

- Super Durable powder-coated set of 2 racks (top and bottom) fits both 20" and 24" locker widths
- Adjustable in 3" increments; holds up to five backboards per rack
- Includes heavy-duty Velcro straps to hold boards in place
- Optional bottom basket allows for outside of locker storage

\*Note: Cannot be used with Secure Door or Top-Side Storage.

### Top-Side Storage™

GearGrid's Top-Side Storage allows you to store additional gear or bulky items on top of lockers. A great option for storing a second set of gear. Can be installed on both new and existing GearGrid storage systems.

Note: Cannot be used with Secure Door.

### Drop Shelf

Store additional gear and equipment underneath both new and existing GearGrid Storage Systems. A great option for storing a second set of gear.

\*Note: Cannot be used with Mobile Locker Systems.

GUARANTEED  
MADE IN USA  
GUARANTEED

**GearDryer™**

The GearDryer is a stainless steel hanger that holds a jacket open.

**GearHanger™**

The GearHanger is a horizontal hanging rod with long-lasting stainless steel construction.

**HeavyHanger**

GearGrid's HeavyHanger is constructed on 1/4" stainless steel, and is the strongest traditional hanger you will find on the market.

**Trouser Hanger**

Our stainless steel HeavyHanger coupled with strong stainless steel clips.

**GearGlove™**

Constructed of stainless steel, this smart option helps gloves hold their shape while speeding the drying process.

**Helmet Holder™**

Protect ratcheting headgear with this innovative yet simple accessory, powder coated for long-lasting durability.  
\*Note: Not recommended to be used with Secure Door or Top-Side Storage.

**Retro-Fit Door**

Add complete locking capability to existing wall mount, mobile or free standing systems. Only available for 20" depth locker systems.

**Stow-Away Seat™**

The GearGrid Stow-Away Seat folds into the locker for compact storage. Has a capacity of 250 lbs. and available on new or existing GearGrid wall- and floor-mount systems.  
\*Note: Cannot be used with Secure Door or Mobile Locker Systems.

**Fire Bench**

GearGrid Fire Bench's rugged construction coupled with a rich-wood look makes it a perfect addition to any facility. Well-balanced and supported, the bench provides a solid and safe seating platform.

- Size:** 72" L x 18" W 21" H
- Frame:** Heavy-duty steel tubular frame system
- Top:** 1-5/8" MDF core laminate
- Finish:** Super Durable TGIC powder coat
- Colors:** 6 standard laminate top options, 7 standard base colors
- Assembly:** With simple tools it's fast and easy
- Shipping:** Ships knocked down for ease of handling and reduced shipping costs

## Slinger Workstation

The GearGrid Slinger Workstation features a heavy-duty work surface, as well as safe storage and convenient, easy access to tools and equipment. Individual units easily transport through halls and doorways, allowing the workstation to be brought to the equipment for safer, easier loading/unloading. Interchangeable, adjustable, flat shelves for tools and supplies, are also available.

**6' Slinger Workstation**  
with optional attached Slinger Tool Grid and Shelf

**4' Slinger Workstation**  
with optional attached Slinger Tool Grid and Shelf

**Width** ..... 51", & 75"  
**Depth** ..... 30"  
**Height** ..... 41"

**Frame:** Heavy-duty 1-1/4" steel tubing

**Side & Back Grids:** High-strength 1/4" steel wire, 3" x 3" square grid pattern

**Secure Doors:** 1-1/4" heavy-duty tubing with high-strength 1/4" wire, 3" x 3" square grid pattern \*Note: Must be specified in initial quote request and order. Locks not included

**Casters:** Locking casters handle up to 950 lbs. each

**Finish:** Super Durable TGIC powder coat

**Colors:** 7 standard colors

**Assembly:** With simple tools it's fast and easy

**Shipping:** Ships knocked down for ease of handling and reduced shipping costs

### Combined Mobile Workstation

This modular workstation features an attached back tool grid, topside shelf and work surface for true mobility and convenience.

- Select from four work surface options (stainless steel, black laminate, granite laminate or butcher block)
- Add Power Bar to the Slinger for easy access to electrical outlets for your power tool needs
- Available in 4', and 6' widths by 81-1/2" tall, with tool hangers and a four-prong rack included as standard
- Additional hangers and racks available

## Slinger Workstation Accessories

### Tool Holders

Store a variety of tools and equipment for convenient, easy access.

### Workstation Pad

Safeguard your work surface from tool damage with this non-slip neoprene work pad.

### Secure Doors

Provide complete locking capability for added security.

### Pull-Out Tool Drawer

A convenient storage space for tools and equipment. Drawers can be stacked for additional storage space.

## A SCBA Mobile Cylinder Cart

Designed to accommodate up to 12 SCBA cylinders. Shelves are firmly secured with locking hardware, and include a securing strap for added cylinder protection.

Width .....	32"
Depth .....	34"
Height .....	58"

Designed to accommodate up to 12 SCBA cylinders. Shelves are firmly secured with locking hardware, and include a securing strap for added cylinder protection.

**Frame:** Heavy-duty 1-1/4" steel tubing

**Base & Back Grids:** High-strength 1/4" steel wire

**Tires:** 13.6" dia. pneumatic tires rated 485 lbs.

**Finish:** Super Durable TGIC powder coat

**Colors:** 7 standard colors

## B Slinger Wall Mount Tool Grid

Fast, convenient tool access and storage, easily configured to meet your specific needs. Mounts quickly and easily with four wall mount brackets.

Includes:

- 4' Unit: 3 Large Tool Hangers & 1 Four-Prong Rack
- 5' Unit: 3 Large Tool Hangers & 2 Four-Prong Rack
- 6' Unit: 4 Large Tool Hangers & 2 Four-Prong Rack
- Additional hangers and racks available

Width .....	4', 5', & 6'
Depth .....	25-1/4"

## C Slinger Topside Wall Mount Shelf

Gear bags, tool cases or extra storage for just about anything. This heavy-duty shelf features tubular steel framing with gusseted support wires, and boasts a weight capacity of 150 lbs.

Width .....	4' & 6'
Depth .....	18-5/8"

### Power Bar

Add Power Bar to the Slinger for easy access to electrical outlets for your power tool needs \*Note: Does not require UL listing. Please check with appropriate officials regarding local requirements.

### Work Surface Options

Brushed Stainless Steel

Black Laminate

Butcher Block

Granite Laminate

## Mobile Hose Dryer

GearGrid's mobile hose drying system promotes faster hose drying within a limited amount of space. Constructed with durable steel tubing and a strong wire grid system, it dries up to 200' of 2-1/2" and 350' of 1-1/2" hose simultaneously (in 50' lengths). The optional hose winder, with removable handle, makes rolling hose a breeze.

**Width** ..... 125"  
**Depth** ..... 36"  
**Height** ..... 65"  
 (Without hose winder)

**Frame:** Heavy-duty tubing 1-1/4" steel tubing

**Grids:** High-strength 1-1/4" steel wire, 3" x 3" square grid pattern

**Casters:** Locking casters handle up to 250 lbs. each

**Finish:** Super Durable TGIC powder coat

**Colors:** 7 standard colors

**Shipping:** Ships knocked down for ease of handling and reduced shipping costs

**Assembly:** With simple tools it's fast and easy

### Locking Casters

Locking casters handle up to 250 lbs. each

### Hose Winder

Allows for a quick and convenient winding process

## Wall Mount Hose Dryer

For a permanent solution, our Wall Mount Hose Dryer can be mounted virtually anywhere. The open wire grid system promotes maximum air movement, providing one of the most economical hose drying options available.

**Width** ..... 312"  
**Depth** ..... 12-1/2"  
**Height** ..... 36"

**Frame:** Heavy-duty 1-1/4" steel tubing

**Grids:** High-strength 1/4" steel wire, 3" x 3" square grid pattern

**Finish:** Super Durable TGIC powder coat

**Colors:** 7 standard colors

**Shipping:** Ships knocked down for ease of handling and reduced shipping costs

**Assembly:** With simple tools it's fast and easy

### Windsor Outdoor Hose Drying Rack

Developed for the Windsor, CA Fire Department, this unique system provides a convenient outdoor solution for drying hoses of all types and sizes. Great for warm climates, it's an ideal alternative to the high initial cost and liability implications of hose towers. Raised platform prevents hoses from getting soiled, as would happen when dried on the ground or pavement.

**Width** .....5'  
**Length**.....48'  
**Height** ..... 3-1/2'  
(With 12" slope)

**Frame:** Heavy-duty 1-1/2" steel tubing for supports and 1-1/4" for frames

**Grids:** High-strength 1/4" steel wire, 3" x 3" square grid pattern

**Finish:** Epoxy primer with TGIC powder topcoat for exterior corrosion protection

**Colors:** 7 standard colors

**Shipping:** Ships knocked down for ease of handling and reduced shipping costs

**Assembly:** Stainless steel hardware all included

### GearCart with Hose Dryer Attachment

Add the Hose Dryer Attachment to the GearCart for the ultimate hose drying solution. Loop hose through the attachment for a quick, convenient drying process. The heavy-duty design allows fire departments to dry hose within a limited amount of space.

**Width** .....75"  
**Depth** .....24"  
**Height** .....82"

**Frame:** Heavy-duty 1-1/4" steel tubing

**Side & Back Grids:** High-strength 1/4" steel wire, 3" x 3" square grid pattern

**Casters:** Locking casters handle up to 950 lbs. each

**Finish:** Super Durable TGIC powder coat finish

**Colors:** 7 standard colors

**Shipping:** Ships knocked down for ease of handling and reduced shipping costs

**Assembly:** With simple tools it's fast and easy

### Heavy-Duty GRP Hose Winder

- Winds up to 5" diameter LDH hose
- Optional wall mount bracket available
- 2:1 gear ratio for winding ease
- Fits standard 2" receiver hitch

## Air Pack Rack

Provides convenient, accessible and movable storage for up to eight packs, and six spare SCBA cylinders. Ideal for training, industrial firefighting, Hazmat applications, and storage of spare air packs.

- Customizable to any cylinder bracket\*
- Available in larger size to accommodate 12 air packs and 12 spare cylinders

Also available:

- Heavy-duty pneumatic tires
- SCBA brackets
- Protective cover

\*Note: Cylinder bracket make and model must be specified at time of order, to ensure compatibility.

**Width** ..... 37" & 70"  
**Depth** ..... 30"  
**Height** ..... 58"

**Frame:** Heavy-duty 2" steel tubing

**Cylinder Shelves:** High-strength ½" steel rod

**Support Options:** 950 lb. capacity locking casters or 300 lb. capacity pneumatic tires; adds 3" to overall height

### Locking Casters

Locking casters handle up to 950 lbs. each

### Zico Bracket

Conveniently holds cylinders and air packs on the system

**Finish:** Super Durable TGIC powder coat

**Colors:** 7 standard colors

**Shipping:** Ships knocked down for ease of handling and reduced shipping costs

**Assembly:** With simple tools it's fast and easy

## SCBA & O<sub>2</sub> Cylinder Carriers

**4 place SCBA**

- Easy, convenient cylinder transport
- SCBA available in 5-¾", 7, and 7-¾" dimensions

**6 place SCBA**

**8 place O<sub>2</sub>**

- O<sub>2</sub> designed to fit up to 4.3" radius cylinders
- Available in all standard GearGrid colors

GUARANTEED  
MADE IN USA  
GUARANTEED

## Station Wagon

GearGrid's Station Wagon is ideal for transporting cylinders, hose and related equipment within the fire station and on apparatus. Designed in conjunction with the cylinder carriers to address both health and safety initiatives within today's fire service by minimizing lifting related incidents while ensuring proper and secure on-board storage.

- Easy maneuvering with nearly zero turning radius
- Multiple accessories and configurations available
- Quick and easy assembly with simple tools

**Width** .....30"  
**Depth** ..... 52-½"  
**Height** .... varies by accessory

**Frame:** Heavy-duty 1-¼" steel tubing

**Tires:** Standard with 15-½" dia. pneumatic tires rated at 350 lbs. each, optional 15-½" dia. NeverFlat tires rated at 500 lbs. each available upon request

**Finish:** Super Durable TGIC powder coat

**Colors:** 7 standard colors

**Shipping:** Ships knocked down for ease of handling and reduced shipping costs

**Assembly:** With simple tools it's fast and easy

**Hose Basket**

### Station Wagon with Aluminum Tub

Affixes to existing Station Wagon base and is secured with bolts on all four corners. Constructed out of aluminum to reduce weight without compromising durability.

"GearGrid was chosen as the PPE storage solution for the new Rayleigh Weir station. It really does the job and we are extremely happy with its performance and versatility."

— John Philpott of Essex Fire and Rescue Property Services, United Kingdom

## Double SwingOut Tool Grid

### SwingOut Tool Grid

When every second counts, fast access to well organized tools is critical. GearGrid's SwingOut Tool Grid provides full visibility, making it easy to locate, grab and go. The system's adjustable, stainless steel tool holders let you configure and maximize your storage space just the way you want it.

Constructed of heavy gauge steel tubing and high strength ¼" diameter wire, GearGrid SwingOut Tool Grids feature a Super Durable TGIC powder coating, in high visibility red or any of seven other standard color options, with custom colors available. SwingOut Tool Grids include exterior safety light and high visibility reflective tape for enhanced safety.

- Minimum compartment sizes apply
- Max tool grid panel size 64-¾" wide x 44-¾" high

### 5 Stainless Steel Tool Holder Options

Axe Head Holder

Pickhead Axe Holder

Maul Head Holder

D-Handle Holder

Secure Tool Holder

- Single and double grid options
- View-through design for fast access
- Assists in managing inventory
- Lightweight construction
- Contact GearGrid for minimum and maximum allowable dimensions
- Ideal for use in all styles of apparatus, including rescue trucks, pumpers and ladders
- 60 lb. gas shock with ball-joint fittings assist in easy open/closing
- Positive latching mechanism standard with each unit
- Unit ships assembled for easy installation
- Independent back wall tool grids also available
- All tool grids come standard with a stationary back-grid

## Single SwingOut Tool Grid

Single SwingOut Tool Grid (Open)

Single SwingOut Tool Grid (Closed)

## PullOut Tool Grid

Our revolutionary PullOut Tool Grid provides the same fast access and ease of organization of the SwingOut System, in a pullout configuration. Tools can be mounted to one or both sides of this tough, powder-coated steel storage system.

- View-through design for fast access
- Assists in managing inventory
- Lightweight construction
- Ideal for use in all styles of apparatus, including rescue trucks, pumpers and ladders
- 5 stainless steel tool holder options to choose from:
  - › Axe head holder
  - › Pickhead axe holder
  - › Maul head holder
  - › D-Handle holder
  - › Secure tool holder

PullOut Tool Grid (Open)

"We specified GearGrid lockers, air bottle racks and a mobile hose dryer for our new engine house. Their staff designed our turn-out rooms and we were completely satisfied. So much so, we recently specified GearGrid's tool board for our new Spencer Mfg. engine. We can store twice as many tools on these boards, compared to a solid board. Being see through, allows our firefighters to see the tool they need, a real time saver"

- Chief Jay L. Hawley, Napoleon Twp. MI

## Broom Center & Wash Center

GearGrid's Broom Center & Wash Center are made of durable steel with a resilient powder coat finish. This system helps organize and extend the life of your cleaning supplies.

**Height** .....25-1/4"  
**Length Available in** ..... 4', 5' & 6'

### Broom Center Includes:

- 4' Unit: 3 Large Tool Hangers & 1 Four-Prong Rack
- 5' Unit: 4 Large Tool Hangers & 1 Four-Prong Rack
- 6' Unit: 5 Large Tool Hangers & 1 Four-Prong Rack

### Wash Center Includes:

- 4' Unit: 3 Large Tool Hangers & 1 Four-Prong Rack
- 5' Unit: 3 Large Tool Hangers & 2 Four-Prong Racks
- 6' Unit: 4 Large Tool Hangers & 2 Four-Prong Racks

**Frame:** Heavy-duty 1-1/4" steel tubing

**Grids:** High-strength 1/4" steel wire, 3" x 3" square grid pattern

**Finish:** Super Durable TGIC powder coat

**Colors:** 7 standard colors

**Assembly:** With simple tools it's fast and easy

**Broom Center**

**Wash Center**

## Vehicle Detail Center

The GearGrid Vehicle Detail Center turns your wash bay into an organized and efficient environment. Keep your wash, maintenance and cleaning materials in one convenient location.

**Width** .....33"  
**Depth** .....20"  
**Height** ..... 54-1/4"

**Frame:** Heavy-duty 1-1/4" steel tubing

**Grids:** High-strength 1/4" steel wire, 3" x 3" square grid pattern

**Casters:** Locking casters handle up to 950 lbs. each

**Shelves:** High-strength 1/4" wire

**Finish:** Super Durable TGIC powder coat finish

**Colors:** 7 standard colors

**Shipping:** Ships knocked down for ease of handling and reduced shipping costs

**Assembly:** With simple tools it's fast and easy

## LA Drying System

GearGrid's LA Drying System provides organized storage and is ideal for drying damp garments. Its heavy-gauge construction includes eight gusseted corner brackets and reinforced base frame. The system also includes a stainless steel hang-bar.

<b>Width</b> .....	75"
<b>Depth</b> .....	20"
<b>Height</b> .....	82"

**Base & Frame:** Heavy-duty 1-1/4" steel tubing

**Grids:** High-strength 1/4" steel wire, 3" x 3" square grid pattern

**Casters:** Locking Casters handle up to 950 lbs. each

**Finish:** Super Durable TGIC powder coat finish

**Colors:** 7 standard colors

**Shipping:** Ships knocked down for ease of handling and reduced shipping costs

**Assembly:** With simple tools it's fast and easy

## GearCart

Designed similar to our LA Drying System, the GearCart now offers more space for drying and storing PPE gear. The added 3" x 3" square grid center divider allows for stainless steel hang-bars and flat shelves to be mixed and matched to meet your exact storage needs.

<b>Width</b> .....	75"
<b>Depth</b> .....	24"
<b>Height</b> .....	82"

**Base & Frame:** Heavy-duty 1-1/4" steel tubing

**Grids:** High-strength 1/4" steel wire, 3" x 3" square grid pattern

**Casters:** Locking casters handle up to 950 lbs. each

**Finish:** Super Durable TGIC powder coat finish

**Colors:** 7 standard colors

**Shipping:** Ships knocked down for ease of handling and reduced shipping costs

**Assembly:** With simple tools it's fast and easy

## Locker Shields

GearGrid's Locker Shields are ideal for protecting gear from dust and debris between uses, or to deter removal of gear in shared-use facilities. Shields protect gear from harmful UV rays, helping prolong the life of your gear.

**Fabric:** Sewn with UV resistant polyester thread

**Colors:** Blue, Red, Black, Grey, and custom colors available

**Printing:** Custom logos available; 13" and 24" width options

### Total Coverage Locker Shield

- Available for new or existing Mobile Lockers (Custom sizes also available)
- Nylon zippers, both ends. Roll-up Velcro ties

### End cap Locker shield

- Available for new or existing Wall Mount and Mobile Lockers (Custom sizes also available)
- Heavy-duty 1/4" internal wire support
- Secures with built-in Velcro straps

### Topside Locker shield

- Available for new or existing Mobile Lockers (Custom sizes also available)
- 1-1/4" heavy gauge tubular frame

## More Than Just Turnout Gear Lockers: One Fire Department's Quest for the Perfect Storage Solution

### The Eagan, MN Fire Department

Fire Departments are constantly faced with the important decision of how to properly store and protect their turnout gear. For one Minnesota Fire Department, they were ready to find something different to match their department's transformation.

After years of using homemade metal units with hooks and shelves from the hardware store, the Eagan, MN Fire Department knew it was time to find a product that would properly store their gear.

While touring fire stations prior to the start of the design process, the Eagan team discovered GearGrid. What immediately caught their eye was GearGrid's sleek design and superb build quality. The fact that all GearGrid products are manufactured in the USA and are specifically made to store personal protective equipment (PPE) sealed the deal.

However, what the department began to discover was GearGrid's hidden treasure: the abundance of additional storage solutions with the ability to customize products more than any other manufacturer in the industry.

One of those customizations was the unique color choice for their turnout lockers in their new station. In honor of the Minnesota Vikings professional football team building their new headquarters and practice facility in Eagan, GearGrid had their in-house powder coating team transform their lockers into a purple and gold Vikings tribute.

In the design of the new facility, it was important for the department to have a designated room off the apparatus floor for storing PPE gear for their entire combination staff. Unfortunately, in the designated area, there was only room for half of the necessary lockers. GearGrid's solution was their Free Standing Tube Wall Structure. The island configuration allows lockers to be mounted on both sides, providing more locker openings where wall space does not allow. With the creativity of GearGrid, Eagan was able to satisfy their needs, and have a locker opening for each firefighter.

GearGrid was exactly the answer the Eagan Fire Department was looking for. Not only were they able to assist with solving their PPE storage challenges, but GearGrid also addressed several other challenges they did not think were possible. Eagan continues returning to GearGrid due to the high quality of their products and outstanding customer support. The department admires GearGrid's ability to listen to the fire industry's changing needs and adapt their products accordingly.

As the department looks forward to the future, they are excited to continue working with GearGrid in pursuit of their next storage achievement.
